CIRCUIT COURT.

The Grind Began Last Monday at This Place.

Grand Jury is Said to be Making a Special Investigation of Vote Selling.

The April term of the Lawrence Circuit Court began on Monday last. Judge J. B. Hannah presiding. The Commonwealth's Attorney for this district, John M. Waugh, was present as usual, watchful of the interests of the State. Few non-resident attorneys were present at the opening of court, and not many have been present since. Following custom the first business to engage the attention of the court was the impaneling of the grand jury. The following named were impaneled and sworn:

J. T. Griffith, I. H. Borders, Dan Blankenship, B. B. Woods, Lon Walker, L. D. Webb, M. Harmon, Jas. K. Fuller, R. J. Toler, Augustus Snyder, J. M. Wheeler, Robt. Ruggies. Mr. Snyder is foreman.

Judge Hannah then delivered one of the strongest and most comprehensive charges ever given to a grand jury in the county of Lawrence. For a few minutes only the bar and the officers of the court listened in the usual perfunctory sort of way, and then all at once they sat up and gave ear. The Judge paid his respects to vote buyers as well as vote sellers in an uncertain terms. There had been no hint that he would talk along this line, although there were many who thought he would say something regarding this debasing offense. Speaking along another line Judge Hannah charged officers and juries, both grand and petit, generally, not those of this county specially, with being responsible with much of the crime now pervading the country. Officers must be more diligent in enforcing the law and juries must be more prompt in finding out and more rigid in punishing, according to law, all offenders. All good citizens are hoping that the charge given will be the means of causing the prompt and condign punishment of all offenders and thus be the means of ridding the city and county, for a time at least, of some very undesirable characters.

Following the formation of the grand jury came the impaneling of the twenty-four citizens and housekeepers who will try the cases set for the present term:

Hiram Bentley, Lafe Moore, Jas. Norton, J. B. Thompson, Henry Bishop, Charley Morris, A. J. Belcher, W. A. Arrington, Kenna Cyrus, Lindsey Wellman, T. V. Ball, Doc Green, Felix Adams, Ben Vanhorn, E. L. Moore, G. V. Burton, L. W. Spencer, J. R. Boling, Luther Laney, O. B. Stump, G. G. Roberts, T. O. Johnson, Joe Kitchen, D. A. O'Daniel.

The case of the Commonwealth against John Damron, charged with the murder of Victor Caperton on the second of last July and set for trial Thursday, was continued on motion of the defendant until the next term of the court. He is out on bail.

The grand jury has already made several special reports, embracing a large number of indictments. Most of these were against persons who were in jail or out under bond. Carl Price, who is now in jail, was indicted for bigamy. Some time ago he married a woman in Catlettsburg. Later, not deterred by the high price of living, he took another "helpmate," this time in Ironton, O. It is thought he will be sent to that place for trial.

Two indictments were returned against Milt Caperton, of this city. One was for cutting with intent to kill, the victim being young Flannery, a former student of the K. N. C., and a resident of Pike county. The assault was committed about two weeks ago and was mentioned in this paper. Caperton was also indicted for an assault upon the person of John Damron, noticed elsewhere in these columns, and alleged to have been committed on the night of Monday last. He was held to bail in the sum of \$500, arrested.—Paintsville Herald.

and not being able to furnish the bond was committed to jail. Tuesday next is set for the trial of both cases.

Lindsay Carter, of Logan county, W. Va., in jail awaiting trial for criminal assault, was indicted and will probably be tried this term.

Acting upon the instructions of the Court, the grand jury is probing into the matter of trading in votes. The probable result will be that the vote of this county will be somewhat decreased because of the disfranchisement of negotiable voters.

Train Loses Whistle.

It occurred one day last week, and the passengers on the Big Sandy train are smiling yet when they think of the oddest incident that has happened on that branch of the C. and O. in years. The train bound for Ashland lost its whistle while still many miles up the valley and was forced to stop and back up almost the entire distance looking for that whistle, which was eventually found miles away from where it was missed. The loss delayed the train five hours. It was due in Catlettsburg at 5 o'clock in the evening, but didn't reach that point until 10 o'clock that night. Trains have been known to lose their switchmen, their cabooses and sometimes a whole cut of cars, but never before has a Big Sandy train been known to lose its whistle. Under the law, a train may not operate without a whistle, and it was this fact that caused the conductor of this train to run back over many miles of track to locate the lost object. —Pikeville Advocate.

Service and Sermon.

On Monday night next the Right Reverend L. W. Burton, Bishop of Lexington, will hold service and preach at the M. E. Church, this city, beginning at 7:15 o'clock. The well known character and ability of the distinguished Bishop should warrant a large congregation on this occasion. The public is cordially invited to attend.

JOE FITZPATRICK DEAD.

Gained Notoriety by Killing a Foe in Circuit Court Room.

News was received here last week of the death of Joe Fitzpatrick, at his home on Middle-Creek, Floyd county, following an illness of several months due to an abscess of the brain. It is said that Fitzpatrick suffered most severely with his afflictions.

Fitzpatrick is the man that gained so much notoriety by walking into the circuit court room during a session of the Floyd Circuit Court at Prestonsburg two years ago and in the presence of three or four hundred persons shot to death Andy Coburn. Coburn was present in court to answer a charge of killing Bill Fitzpatrick, in Floyd county one year before. He surrendered soon after committing the deed and made a plea of self-defense and was admitted to bail. Fearing trouble because of the killing of Bill Fitzpatrick he disposed of his property in Floyd county and went to Greenup county where he purchased a good farm and was living quietly. When the time for his trial came he boarded a train and went to Prestonsburg and entered the court room, taking his seat about midway the building. Five minutes after he entered the room Joe Fitzpatrick came in and locating Coburn he went to within easy reach of him and fired several shots into his body. He then walked out of the court room and in company with a number of friends rode quietly away and was never apprehended. The assassination of Coburn created a panic in the court room. After a time quiet was restored and a number of women in Prestonsburg went into the room and rendered all possible assistance to Coburn, who did not die for several hours after he was wounded. The killing of Coburn was to avenge the killing of Bill Fitzpatrick. Joe Fitzpatrick lived quietly after killing Coburn and although within a few miles of Prestonsburg, he was not held to bail in the sum of \$500, arrested.—Paintsville Herald.

HOW THEY GRAFTED.

Details of Some of the Waste at Washington.

It should interest everybody to know how the public money has been wasted at Washington during the past fifteen years. The following dispatch sent out from Washington to the Cincinnati Enquirer tells something of how it has been done:

Washington, April 9.—How \$182,680 has been saved by the House Democrats has just become public through the report of the House subcommittee of which Representative A. Mitchell Palmer, of Pennsylvania was Chairman. It is one of the most interesting documents produced by congressional authority for a long time, recommending, as it does, the elimination of time-worn jobs that seemed to be a part and parcel of the House of Representatives for decades past.

One striking example of the waste of public salary funds, as the subcommittee Chairman was pleased to describe it, was the discovery that a thirteen-year-old daughter of Chief Doorkeeper Lyons was on the payroll as "clerk to the Doorkeeper" at a salary of \$1,300 a year, with an extra month's pay each year as a vacation gratuity. The committee was unable to discover exactly what the functions of the "clerk to the Doorkeeper" were, and consequently the position was abolished.

Jobs Never Ended.

In the course of his report Mr. Palmer observed that numerous positions were created in the House from time to time, but none appear ever to have found an ending. The pay envelopes have been handed out regularly for each position from month to month, without any inquiry as to the value of the services rendered by the persons receiving them. Ludicrous illustrations of this were developed during the course of the committee's investigations.

"Soon after the Spanish War broke out," Mr. Palmer says in his report, "somebody's friend told some body's cousin that somebody's aunt had heard some one say that a plot was on foot to dynamite the Capitol. Thirty-eight extra policemen were added. They have remained ever since."

There was a hesitancy on the part of the committee, Mr. Palmer, says, as to whether or not these thirty-eight policemen should be continued on the payroll permanently because of a war scare 13 years ago. The jobs were lopped off at a saving of about \$39,000 annually.

Easy For These Boys.

A paradoxical relic of an ancient and long forgotten situation was discovered in connection with the services of two telegraph operators. Many years before the telephone was invented a private telegraph line was installed between the War Department and the House wing. Two operators were provided for this wire.

The telephone came along and nobody used the telegraph any longer. The operators didn't say anything about it, and it never occurred to anybody to ask what they did for their wages. They just drew their salaries and drew and drew. They got \$1,400 apiece which seemed good to them. The Palmer Committee had the outrageous indecency to get next to their snap, and now they are going to be compelled to learn the Morse code again and do real work.

In 1895, the report says, the clerk's document room of the House was abolished. With its passage into history were intended to go all of the document room's attaches.

Salaries Still Went On.

The committee discovered that, irrespective of the 1895 decree, the document room was still in existence, and so were the corps of clerks drawing a salary total of \$6,260 every year. The committee decided on its abolition forthwith.

The investigation, among other things, reported that the House folding room had attached to it two night watchmen, drawing something like \$900 a year each. As the Capitol Building is patrolled by a police force of 74 policemen the committee came to the conclusion the document room could well afford to ent time.

dispense with its pair of watchmen in the future.

Altogether the Palmer Committee found the House could exist without the services of clerks and other employees to the following amounts:

Saving under Speaker, \$2,320.00; under clerks, \$9,970.00; under Sergeant-at-Arms, \$47,050.00; under doorkeeper, \$1,340.00; by abolishing extra month's pay, \$50,000.00; saving through abolishing six committees, \$12,000.00; Total, \$182,680.00.

Removals are Numerous.

Sam Patrick has moved to Salyersville and the house vacated by him, the old M. E. parsonage, is occupied by Frank Jones. The house on Lock avenue vacated by Jones is now occupied by George E. (Frisky) Carter.

Mr. Daum has moved into the Lon Garred house on Lock avenue, and the house vacated by him on the corner of Lock avenue and Maple street is now occupied by A. J. Ford the hand man.

G. A. Nash has moved from the Freese property near the bridge into the apartments lately occupied by Dr. Jenks, on Main Cross street.

George Lavin has moved from the house on the corner of Jefferson and Franklin streets to a house on upper Jefferson known as the Flem McHenry house. Sorry we have to break this endless chain.

Was Seriously Sick.

Mrs. Margaret Moore was very seriously ill at the residence of her daughter, Mrs. Hannah Lackey, last week. She had an attack of acute indigestion, and was so sick that her absent children were telephoned for. The nearest, Mr. John Moore, of Lockwood, Mr. Fred Moor and Miss Kate Moore, of Cincinnati, came at once. Before Mrs. Blanche Newman, of Atlanta, Ga., could be reached Mrs. Moore became better and her daughter did not come. Miss Kate Moore returned to Cincinnati Monday evening. Mrs. Moore continues to improve.

FOURTH PRIZE

In the Enquirer Contest Won by Thos. V. Salter.

The Cincinnati Weekly Enquirer several months ago started a cash premium contest for subscribers, offering a total of \$5000 cash. The capital prize was \$1000, with a long list of smaller prizes. Thos. V. Salter, of this county, who won the capital prize of \$500 in a similar contest a year ago, landed the fourth prize this time. The amount is \$300. Also, he was awarded another \$100 for having the largest list in four states.

The winner is R. L. Westover, a newspaper man in Central Kentucky. He secured 3,045 subscribers. Salter had 2,671.

SCHOOL CENSUS.

The law provides that the school census shall be taken in April, and as of the first of April. That is, if a child lived in a certain district on the first day of April, even though he should move away the next day and not come back, his name should be taken. On the other hand, if the census taker finds a child that has moved into the district since the first of April, his name should not be taken unless the census taker knows positively it was left off the list in his old district. While the census is taken in April, the school year does not begin until July 1st, and if, when the census taker is taking the list, he finds a child under six, who will be six by July 1st, his name should be taken; if a pupil is twenty now but will be before July 1st, leave his name off the list.

NEW DIRECTORY.

The Southern Bell Telephone and Telegraph Company, of Kentucky, incorporated, has completed the delivery of the new directory of the Louisa exchange. The Directories show the new additions and all changes since the last issue, making a total number of subscribers for Louisa, Ky., to be 120 at the present time.

ASPHALT IN CARTER.

Our Next Door Neighbor Discovers Valuable Deposit.

A representative of the United States Geological Survey has been in Carter county investigating a field of natural asphalt rock recently discovered near the village of Soldier. He estimates that it covers an area of more than 600 acres and contains upward of 5,000,000 tons of asphalt. In addition he has found that it overlies a bed of fire clay which will permit of both materials being mined at the same time when development is under way.

The fire clay industry has been important in Carter county, for many years. Carter is one of the few counties in the State producing cannel coal. It also has bituminous coal, iron ore and limestone in immense quantities. The discovery of asphalt makes possible the development of an additional industry and it is said that capitalists already have become interested. As the asphalt lies along the Chesapeake & Ohio railway the prospect for early operations is decidedly favorable.

Our State Geological Survey is constantly finding new mineral treasures and is planning to issue a bulletin describing the mineral resources along the various railroad lines throughout the State. This would be an important publication and would be of inestimable value to the State. The rapid rate, however, at which discoveries are being made would require frequent revisions of the bulletin up to date.

A 600-acre asphalt district should augment materially the industrial and commercial activity in Carter county. It is a distinct cause for gratulation on the part of the people of Carter, a county already liberally supplied with industries and with abundant materials for the creation of others.—Courier-Journal.

The Play and the Minstrels.

The troupe went to Paintsville last Friday and played in the Seminary auditorium to capacity house. By "troupe" we mean the clever Louisa amateurs who made such a hit in Louisa, their home town two or three weeks ago. In spite of the horrible weather the good people of the hustling little town turned out en masse, giving our minstrels, the play and the young ladies of the drill a fine audience, generous with its applause and hearty in its praise. Not only so, but the citizens took our crowd to their homes and treated them as welcome guests. As the mouthpiece of the Louisa people the News profers to all the Paintsville people who so generously and hospitably made the visit of our friends a delightful event a thousand thanks.

CHANGES HANDS.

F. L. Stewart and H. C. Sullivan have sold the Crystal Block Coal Company to a party of capitalists who have taken up a lot of adjoining coal property. The mines are not being operated at present, but will be put to work later on a large scale. There is a larger vein of fine coal on the property that has not been mined. It was discovered prior to 1876 and a large block was placed on exhibition at the Centennial Exposition at Philadelphia.

REDUCED RATES ON COAL.

Frankfort, Ky., April 8.—Freight rates on coal from the Big Sandy division of the Chesapeake and Ohio Railroad to Lexington has been changed from \$1.20 a ton to \$1.10 a ton at the order of the Railroad Commission. The complaint was made in the case of J. B. Payne of Lexington, against the Chesapeake and Ohio Railroad and the railroad company refunded Payne \$185.

IS GETTING WELL.

Former representative Garfield Moore, of this county, paid this office a call last Monday. He had been to Russell, where he has a very sick son, Milt, who has been in bed nearly two months. The young man's Lawrence county friends will be glad to hear that he is recovering slowly but surely.

Boys' Corn Clubs.

We do not know who first started the idea of the boys forming corn clubs but it has resulted in one of the best means of agricultural education among the farmer boys imaginable. It teaches them to study soil fertility, testing of seed, intensive farming and obtaining great results. The boys are accomplishing more than their fathers ever dreamed of on their worn-out land. These boys form a new regime, a new and intelligent band of farmers who will never be satisfied to cultivate fifty acres of land when twenty-five acres will grow more corn and at a profit instead of a loss. Intensive farming is slowly coming to the South and these same boys are helping the good cause.

Merged Into Huntington.

Guyandotte, the second oldest town in West Virginia, on April 6, voted, by a majority of 125, to become a part of Greater Huntington.

The vote was in a hard fight, by a majority of 50 and this victory practically insures that the Board of Commissioners of Huntington will grant liquor licenses for that section of the city.

The Democratic ticket was elected without opposition, but these officials will only serve until June, when Guyandotte will become a part of Huntington. The annexation gives Huntington an increased population of approximately 2,000.

Fatal Accident at Van Lear.

Last week one of the Van Lear mines was the scene of an accident which had fatal results. A man named Delaney, who was running a motor, was, through some unknown means, caught on a "rib," thereby receiving injuries which caused his death. He was a young man, married, and had one child. The body was properly cared for by the I. O. O. F. of Paintsville. Our informant failed to name the residence of the deceased.

WOMAN KILLED.

A Big Sandy Train Hits a Catlettsburg Citizen.

Mrs. Haley, wife of Christopher C. Haley, section foreman on the O. & B. S. division of the C. and O., was struck by Big Sandy west bound passenger train No. 37, and almost instantly killed.

Mrs. Haley and her daughter, Mrs. Virgil Alexander, were walking down the track, taking Mr. Haley his dinner. Engineer Wesley saw the women on the track, about one hundred feet above the cross, and sounded the whistle. Mrs. Alexander stepped off, but the mother stayed on until the engine was quite close.

The daughter grabbed at Mrs. Haley, and Engineer Wesley had reversed his engine, the whil the alarm whistle was being sounded; and just as Mrs. Haley was stepping off the track the side of the pilot struck her, hurling her quite a distance. She was so badly crushed that she breathed only a couple of times ere death claimed her. Her age was 54.—Independent.

ANOTHER AFFRAY.

On Monday night last Milt Caperton, so it is alleged, made an attack upon John Damron, attempting to cut him with a knife. Damron made a motion as if to draw a weapon

THE END OF TUBERCULOSIS

Stamping Out the Disease.

By HOMER FOLKS.

There is absolute unanimity, too, among our expert authorities (as there was not a decade ago) as to just what we need to do in order to prevent tuberculosis. We must have general public education as to the nature and symptoms of the disease, and we have it. We must have reporting of cases by physicians, and we are getting it. We must have free dispensaries in every city and considerable village at which any person can secure an expert and thorough diagnosis of his condition and adequate instructions as to what he must do, and we are getting dispensaries. We must have visiting nurses to visit the patients in their homes and instruct them, not once, but many times, in the protection of their households. We are getting visiting nurses. We need, above all, hospitals in the larger cities and a county hospital in every county, and we are getting hospitals.

Former Mayor Tom Johnson, of Cleveland, Ohio, died in that city last Monday night after a long illness.

The Republicans of the Johnson-Martin legislative district met in convention at Inez, on Saturday and nominated the Hon. M. C. Kirk as their candidate for a seat in the General Assembly. There was no opposition to the nomination of Mr. Kirk, Johnson county Republicans having already passed resolutions of instructions in his favor, and he was the unanimous choice of the Martin county people, he being one of their "fellow citizens."

There can be no doubt of Mr. Kirk's election.

TUSCOLA.

Mrs. Mary Wright continues very sick.

The recent rains have damaged road to such an extent that traffic is almost stopped.

Farmers are working early and late and a large acreage of corn will be planted.

The recent frosts have damaged the fruit crop here, the early bloomers being damaged most.

Pasture is a little backward for the time of year but wheat is looking fine. The farmers are beginning to realize the fact that it pays to care for the land to have a variety of crops and plenty of fruit. We have some that are planting acres of apples and peaches.

After a lingering illness of several weeks of heart trouble Fred Stuart passed to the great beyond. He was an honest, sober, upright, industrious citizen, one that commanded the respect of all. He was a consistent Christian and died as he lived, in the triumph of a living faith. He was a member of the I. O. O. F. and the Masons and these lodges attended to the burial rites. His funeral was preached by Rev. French Rice Sunday at the church at Jettie after which the remains were taken to Webbville for interment. A large concourse of friends and relatives attended the funeral and burial.

He leaves a wife and one son to mourn their loss. The bereaved have our deepest sympathy.

THEY ALL DEMAND IT.

Louisa, Like Every City and Town in the Union, Receives It.

People with kidney ills want to be cured. When one who suffers the tortures of an aching back, relief is eagerly sought for. There are many remedies today that relieve but do not cure. Here is evidence to prove that Doan's Kidney Pills cure, and the cure is lasting.

Dr. R. Frasher, Fort Gay, W. Va. says: "I consider Doan's Kidney Pills the best remedy on the market for kidney and bladder complaint. I have prescribed this preparation in many cases and at the present time, six or eight of my patients are using it with excellent results. I have taken Doan's Kidney Pills with the most satisfactory results, and am loud in my praise of them. The residents of this vicinity suffer considerably from kidney and bladder trouble, due to the poor quality of the drinking water. It has been my experience that all difficulties caused by weak kidneys such as irregular passages of the kidney secretions, gravel, dropsical swellings, lumbago, pains in the back and hips, can be removed by Doan's Kidney Pills. A few doses of this remedy taken immediately when the trouble is noticed will save much misery."

For sale by all dealers. Price 50 cents. Foster-Milburn Co. Buffalo New York sole agents for the United States.

Remember the name—Doan's—and take no other.

EASTER SUNDAY'S LESSON

II Kings 11:1-20—April 16

"Blessed are they that keep his testimony, and that seek him with the whole heart."—Psalm 19:9.

JEZEBEL's daughter, Athaliah, on the death of her husband, became Queen Dowager of the Kingdom of Judah, her son Athaliah becoming King. In Oriental lands the King's mother is still the highest authority in the Kingdom, as, for instance, in China. This was the custom with the Jews. As Queen Dowager, Athaliah had exercised a powerful and baneful influence against the true God and His worship and in favor of Baal worship. Hers is not the only instance in which the intermarriage of the kings of Israel with the daughters of foreign kingdoms brought great injury. Her mother Jezebel was another notable illustration. And we remember that it was Solomon's foreign wives who ensnared him.

A proper recognition of the antitype, or spiritual significance of that item of Jewish law, should be observed by all and is applicable to Christians, who constitute, from the Divine standpoint, "a holy nation, a peculiar people."

Christians are not to be unequally yoked with unbelievers. Christians are to come out from the world and be separate.

This, however, does not apply to nominal Christians, but only to the spirit-begotten class, who have made a full consecration of themselves to the Lord. These are counselled to marry "only in the Lord"—only the consecrated.

Those who disregard this Divine injunction endanger their own spiritual development, as well as their own happiness and the happiness of the worldly person with whom they become yoked.

Murdering For Power

When King Ahaziah was slain by Jehu, his mother, the Queen Dowager, realized instantly that this meant her loss of rank and power—the power and honor and riches which her selfish, proud heart so loved. She realized that the moment her grandson ascended the throne she must vacate her position in favor of her daughter-in-law. Her selfish, proud heart resolved that on no account should this be. Rather, she would be murderous. Forthwith she caused her grandchildren to be slain, except one, an infant, who was hidden by his aunt in a room used for the storage of sleeping mats, and, in our lesson, styled a bed-chamber. Subsequently, he was nursed until his seventh year, in one of the rooms connected with the old temple, which was in disuse during Queen Athaliah's reign, as she favored and upheld the worship of Baal.

One lesson for us here is the power of pride. We may well hope that many could not be influenced to become murderers, even with such inducements. But not many of us will ever have such a temptation either to grasp a throne or to retain hold of one already possessed.

Since we are not kings and queens and have not their temptations, let us note that the same principle of hardness operates in the business world, in the social world and in the family. In the business world, it operates to the destruction of a rival concern. In the social world, it cuts rivals, prompts to misrepresentation, slander, etc. In the home, as between parents and children, brothers and sisters, it frequently means injustice. The correction for all this is a love of righteousness, which will lead each to love and to obey the Golden Rule, and, as nearly as possible, to comply with the Divine will. "Thou shalt love the Lord thy God with all thy heart and all thy mind and all thy being and all thy strength, and thy neighbor as thyself."

Crowning the Boy King

The young King was named Joash. He was kept in hiding six years and, in his seventh year, was crowned. Je-ho-ha, the High Priest, whose daughter had rescued Joash, superintended the inauguration ceremonies. With great wisdom he called together the chiefs of the nation at a festive time, when their coming would not be thought strange.

Like wise the

guards were so disposed as to give every protection to the young King and leave the palace without protection. The ceremony passed off successfully. The Queen Dowager, hearing the shouts, "Long live the King!" came forth from the palace to the temple to investigate and, realizing the situation, cried, "Treason, treason!"

So it is that injustice sometimes becomes entrenched and fortified in human minds so that an attempt to establish righteousness is considered treason, rebellion, outrage. The lesson to us all is, "Keep thy heart with all diligence, for out of it are the issues of life."—Prov. 4:23.

HOME CIRCLE COLUMN.

COLUMN DEDICATED TO TIRED MOTHERS AS THEY JOIN THE HOME CIRCLE.

If a Man Die Shall He Live Again?

Back of the happiness of the season at Easter lies the hope of the soul, the augmenting certainty with which man answer this question. It is one of the oldest of all questions. In the morning glow of time by the fields of Egypt and the plains of Chaldea, men sought to solve the mystery. The Indian talked of hunting grounds and the man of business in Chicago and London drops his papers on his desk and finds himself wondering whether he will have any part or knowledge in the life that will go on when he is gone.

The search favors not at all of superstition. The advent of science has not served to make it any less pressing. The only difference is that men cease to be satisfied with superficial answers. At heart the race beats as one here; it feels that immortality is right; its whole theory of life is built on this; we live by the faith of an unending life.

The word Easter is almost synonymous with happiness, but happiness of all are those who have the Easter vision, which is the vision of a living Christ. Easter day is the celebration of the resurrection of our Lord, "who liveth and was dead, and is alive for evermore. That is the old, yet ever new, the precious Easter truth, "a living Christ," to give new life through the hope of immortality. Where is the sting of death or the victory of the grave, with the expectation of a perfect world beyond?

Love is ever asking the question. Friends may die, but the friend ship lives. We have said our farewells, but the longing for their faces does not dim. Fathers and mothers are cherishing the hope of a day yet to dawn when the old home ties will be knit again. Hearts that are

heavy with the sorrow of a lost form and a silent voice will see the star of hope through the blurring of tears. We have written this hope in all the beauty of our cemeteries, in love's memorials. We accept it as our every day thoughts.

In some lives, those that have meant most for this world, there has been a steady consciousness of another world and a larger life—a sense of immortality. All the teachings of Jesus stand out with this background of a man's life as stretching far beyond the dust. And so, when the gloom of the grave gathered about him, those who knew him best saw in it but the promise of another day and soon they saw, as never before, how glorious and how real the fate of life that cannot taste of death.

Easter is the symbol of life. To make room for the life more abundant, there must be a death of the life insufficient, a death of old desires, ambitions and aims which are unworthy. Each year should bring a fresh resurrection in our lives—a death of the old life, poor and mean, a resurrection to the new life, unselfish and hallowed. We must die to weakness to arise to strength. We must die to selfishness to arise to devotion. We must die to strife and hatred to arise to peace and love. We must die to the things which are temporal to arise to the things which are eternal. To all who have the clear Easter vision, Christ is risen indeed in the heart, to be alive forevermore.

Easter Faith.

That which we cannot demonstrate as a scientific fact we grasp by faith. With what scorn and loathing do we look on any who, lacking love ties to the future and barren of hope for larger life, tell us that men die like the beasts! No.

Faith has wrought the better hope into the very fiber of our basic thinking. We love best the songs that sing it and give immortality to the literature that speaks our hope most clearly.

Either the question must be answered in the affirmative or it must be that man is the great exception to the laws of an orderly world, the one being whose life is but a maze of contradictions. Are his powers alone to fail of their possibilities? Is he the one flower whose glorious seeds shall find no fruitage? Why bears he these longings, why cherish dreams and hopes that can never be fulfilled in the brief span of his life? Shall he come into being freighted with these precious seeds of eternity, this consciousness and expectation of larger life, and all fail of fruition?

Life mocks not thus the grass of the fields. How much more, then, shall your Heavenly Father care for you O ye of little faith. To

doubt the fullness of life yet to be is to doubt the promise written over all the Father's works. And the heart of man answers back to the voice of nature. The nobler the man the clearer and firmer his hope of life to be; the white souls, the leaders, the lord of them all in life and character, kept clear and undimmed that shining light.

Love is ever asking the question. Friends may die, but the friend ship lives. We have said our farewells, but the longing for their faces does not dim. Fathers and mothers are cherishing the hope of a day yet to dawn when the old home ties will be knit again. Hearts that are

heavy with the sorrow of a lost form and a silent voice will see the star of hope through the blurring of tears. We have written this hope in all the beauty of our cemeteries, in love's memorials. We accept it as our every day thoughts.

Every wedded pair might be happy did they but bear each other's burdens, and strive with half the zeal they sometimes exert to make each other miserable to contribute to each other's mutual happiness.

Let the rooms where the family live be cheerful and sunny. No lady would expect her house plants to send out full, brilliant blossoms unless she placed them at a window where the sunshine would invigorate them. No more should she expect her children to show fresh, rosy complexions, or to develop genial dispositions, unless they live in light, sunny, airy rooms.

WEST VIRGINIA NEIGHBORS.

NEWS FROM COUNTIES JUST ACROSS THE RIVER IN WEST VIRGINIA.

At Logan Thursday the entire Democratic ticket was elected by majorities ranging from 59 up.

By a vote of 260 to 70 Guyandotte will be annexed to Huntington. The town went "wet" by a majority of 76.

It is reported that the Pelham Oil and Gas Company's new well at Rose Branch, Logan county, come in last week as a big gas gusher. It is claimed that it will produce several million feet daily. Loganiates are interested in this company.

Tom Fuller of near Lavalette was shot and seriously wounded Saturday night by Andy Crawford near the head of Camp Creek. Fuller had been to Huntington and was on his way home when the trouble occurred. There was an old trouble between them that is said to have been the cause of the trouble. Fuller was taken to the Kessler hospital for treatment.

Leslie Nobel, who was employed in the mines at Holden, was run over and crushed to death by a mine car Thursday. Nobel was a school teacher by profession, but worked in the mines when school was not in session. He had a large circle of friends in and around Holden who held him in the highest esteem. He leaves a wife and three children.

Huntington, W. Va., March 29.—The home of Wade Marcum, a farmer living on Breeden creek, Mingo county, was burned last night destroying currency that was the hoard of years and amounting, it is said, to \$10,000. Marcum had led the life of a miser for a number of years. He had sold valuable coal and timber lands, always demanding payment in green backs of large denominations. This cash he always kept in the house, fearing to trust it to the banks. Marcum's smoke house was also burned and the loss included 2,000 pounds of meat.

Further extensive development of coal lands in West Virginia is outlined to the Manufacturers Record by Garrison B. Smith of Charleson, who is president of the West Virginia Coal Land Co., which organized recently. This company has purchased at about \$1,350,000 the Gallego Land Co.'s 27,000 acres in Fayette, Kanawha and Raleigh counties, has sold various tracts to companies now operating under lease, and will make leases or develop the remainder. About 15,000 acres will be so developed. The Pittsburg Coal & Coke Co., the Republic Company and the Christian Colliery Co., are among the opera-

tors which purchased the tracts they have been working. The Selby Company will buy its leased lands and the Eagle Colliery Co., will be organized to buy and develop 250 acres. This latter company has J. W. Dawson of Charleston as president and H. H. Rothwell of Burnsville, W. Va., as manager and engineer in charge.

The law allows each delegate and senator \$4.00 per day for 45 days and 10 cents mileage to and from the capital. Yet four out of the fifteen dignified refugees who spent 17 days in high living at Cincinnati refused to accept pay for this period of time. Senator D. B. Smith, of Cabell, Senator Sutherland, of Elkins, and Senator Cuffman, of Clarksburg, only drew pay for 28 days, but President Hatfield of this district went these honest souls one better still, he would not accept pay for any of his time but only drew his mileage. Did the other 11 Senators deserve pay for the time spent in the Queen City?

The Red Jackt, W. Va., Consolidated Coal and Coke Co., is progressing with its new tipple, which will be equipped for a daily capacity of 6,000 tons of coal. The company says: "We are now erecting a steel machine-driven tipple for our Mitchell Branch mine, with four loading tracks, for producing slack, nut, lump, straight run of mine and 1 3/4 inch run of mine, or any combination of these sizes. The general contractor is the Jeffrey Manufacturing Co., of Columbus, O. Our machinery and material for this structure has been purchased. In connection with this tipple we have laid about two miles of standard-gauge railroad track, including sidings."

LOST APPETITE AND HOPE

Neglected Cold Caused Complication, Promptly Restored by Peruna.

Mrs. Ross Boyer, 1422 Sherman Ave. III, writes: "If any one has reason to praise Peruna it is myself. Last spring I used to run down from the various effects of a lingering cold, that several complications resulted in putting me down. I could neither eat nor sleep well, and lost flesh and spirit. I finally tried Peruna and it did wonders for me. In two weeks I was like another person, and in a month I felt better than I ever had before. I thank Peruna for new life and strength. I send you two pictures, so you can see what Peruna has done for me."

Dotty Dimples.

No false pretense has marked the career of Ely's Cream Balm. Being entirely harmless, it is not responsible like the catarrh snuff and powders for minds shattered by cocaine. The great virtue of Ely's Cream Balm is that it speedily and completely overcomes nasal catarrh and hay fever. Back of this statement is the testimony of thousands and a reputation of many years' success. All druggists, 5¢, or mailed by Ely Bros., 56 Warren Street, New York.
